BULBS BY MAIL

Because of our state quarantine laws all bulbs shipped by mail must be inspected. This often necessitates a delay in delivery. We exercise every precaution to have our bulbs clean and free from all pests. Prices are postpaid except where noted. Special attention is given to careful packing.

PET STOCK DEPARTMENT

We carry the most complete and up to date stock of bird cages and stands in the city. Fancy, or plain designs in brass, bronze, or enamel. Also St. Andreasburg Roller Canaries, Parakeets and other birds in season.

Bring your bird troubles to us and get expert advice. Bird Supplies and Aviary requisites.

Everything for dogs. We sell quantities of dog biscuits in bulk. This keeps our stock fresh and gives you the benefit of bulk prices.

An attractive display of dog collars, leads, etc. Dog and cat remedies and advice on their ailments.

GOLD FISH

We have one of the finest aquariums in the city and stock a variety of gold fish in season. We also have many beautiful and attractive aquariums as well as a fine supply of fish bowls. Aquarium plants in season and a complete line of supplies.

NON-WARRANTY: Note—There are so many contingencies to be encountered in growing plants from seed and in setting out plants that are dependent on the weather and other conditions over which we have no control, that success in planting is not altogether dependent on the seed or plant. We will send out only seed which we believe will grow and produce the kind of plant and variety represented, but:

Aggeler & Musser Seed Co. give no warranty, expressed or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, plants or trees they send out, and they will not be responsible in any way for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

Bulbs For Fall Planting

AGAPANTHUS

Blue African Lily

(Packing and Postage 15c per doz.)

A very hardy and sure blooming lily, bearing clusters of bright blue flowers on stiff stems about three feet high. The leaves are long, glossy and very decorative. 35c each, \$3.50 doz.

ALLIUM NEAPOLITANUM

This charming, star-like flower is not well known, but is appreciated by all who grow it because of its splendid cutting qualities. The flowers are small, pure white with black centers and grow in loose clusters. May be used nicely as a filler in bouquets. Grows well in any good garden soil. 35c per doz., \$2.50 per 100.

ALSTROEMERIA AURANTIACA

(Packing and Postage 25c per doz.)

A beautiful and much prized flower which resembles a lily in both habit and form. The tubers should be planted in loamy soil and thrive best in partial shade. If left undisturbed they form permanent beds which will be in flower at least six months of the year, being particularly lovely during the winter and spring. The flower stalks should be cut back to about a foot from the ground when through blooming. The flowers are a bright orange and blossom in clusters of four to eight on stalks 2 to 3 feet high. We recommend these flowers for your garden because of their excellence as cut flowers, easy culture and adaptability to a shady location. 25c each, \$2.50 per doz.

ALSTROEMERIA CHILENSIS

(Packing and Postage 10c per doz.)

A beautiful pink variety similar to the above, but requiring different culture. Plant in a sunny location in loose, loamy soil. These plants become entirely dormant during the summer when they may be lifted or they may be left in the ground and not watered. Is always a fine cut flower. 50c each, \$5.00 per doz.

AMARYLLIS

BELLADONNA

(Packing and Postage 15c per doz.)

This variety has luxuriant green foliage during the fall, winter and spring. During late spring the foliage dies off and in July and August the flower stalks rise from the bare ground with umbels of lovely, rose pink lilies. The flowers are fragrant and keep well. The bulbs should be planted during the fall, but do not always flower the first year if planted late.

Large size, 25c ea., \$2.50 per doz.

Small size, 15c ea., \$1.50 per doz.

JOHNSONII

A handsome red with white stripe through each petal. Large size 25c each, \$2.50 per doz.

VITTATI HYBRIDS

The finest of this class. The flowers have six petals of velvety texture, which curve back and open wide so that these gorgeous flowers often measure 8 to 10 inches across. The colors vary through all shades of red, scarlet, pink and white. This flower is comparatively new and the supply is limited, but because of the gorgeous coloring and enormous size it is increasing in popularity each year. Extra fine bulbs 75c each.

Anemone

ANEMONE

Should be planted during the fall and winter in slightly raised beds. The bulbs should be soaked in water before planting. The pointed extensions on these bulbs should be placed downward. Plant 1½ inches deep and 5 to 6 inches apart. This fine mixture of single poppy-like flowers includes a great variety of colors: Red, pink, blue, white, scarlet, etc.

Large, \$1.00 per doz; \$7.00 per 100.

Small, 75c per doz; \$5.00 per 100.

CANNAS

Ready for shipment in January. See general catalog for list and description.

Chionodoxa

CHIONODOXA

Glory of the Snow

These are lovely early spring flowers blooming in February, March and April and are usually used for borders or for pot culture. The flowers are blue with six or more to a stem. The bulbs may be left in the ground, lifting only every 3 or 4 years. Plant 3 in. deep, 4 in. apart. 10c each, \$1.00 doz., \$7.00 per 100.

BEGONIA

Tuberous Rooted

Ready about January 1st, see general catalogue.

CALADIUM

Elephant Ear

(Packing and Postage 15c per doz.)

Ready for shipment in December.

A semi-aquatic plant, requiring a warm location and plenty of water. They may be kept growing throughout the year in most localities in this state, but should they be frosted down they will soon make new growth. The large leaves are very ornamental. 25c each.

FREESIAS

Freesias may be planted from July until January. They are easily grown, blossom freely early in the spring and the bulbs will multiply and continue blossoming for years. The soil should be a sandy loam and though they grow well in full sun they also may be planted in partial shade. All Freesias are fragrant and make good cut flowers.

Purity Freesias are an improved pure white variety.

GALANTHUS

Snowdrops

Dainty little pendulous flowers which bloom early in the spring. The bell shaped flower is white tipped with green. They prefer a cool, moist situation. 10c each, 75c doz., \$5.50 per 100.

Galanthus

IXIAS

A small bulb producing attractive flowers on graceful stems twelve to eighteen inches high, requiring the same culture as Freesias. The flowers are excellent for cutting because of their grace and unusual keeping qualities. Ixias are growing increasingly popular and each year more of the European varieties are being imported to be grown as cut flowers.

Besides our mixture we have added the following separate colors:

Rich Yellow, black center.

Carmine Rose.

Green and Black.

Double Rose.

75c per doz., \$5.50 per 100.

Mixed 60c per doz., \$4.00 per 100.

LEUCOJUM VERNUM

Snowflakes

(Packing and Postage 10c per doz.)

Dainty little white bells with a bright dot of green, hanging gracefully on stems eight to ten inches long make these little early spring flowers a delight to all. Plant the bulbs 3 inches deep and give the same culture as Narcissi.

HYACINTHS

L'Innocence

We have selected for you those Hyacinths that most nearly measure up to our ideal of quality. They may be planted from October to January. Plant in rich, light soil to a depth of five or six inches. The crown should always be covered at least four inches. Hyacinths outdoor or pot grown are improved by frequent applications of liquid manure until flowers appear.

For pot culture a single bulb should have a five-inch pot. Plant the bulbs so that the top of the bulb is even with the soil. Water thoroughly and place in a cool, dark situation. Care should be taken to have a good root growth before bringing to the light. This usually takes from four to eight weeks.

To grow in hyacinth glasses fill glass so water almost touches base of bulb. Put in lump of charcoal to keep the water pure. Change water about

once a week. Keep in a dark place about six weeks and then bring to light, avoiding bright sunshine.

BULB FIBRE CULTURE

For bulb bowl culture—a single bulb should be given the same space as for pot culture. The Giant Named or Roman Hyacinths are the most satisfactory for this manner of growing. Thoroughly moisten the bulb fibre and firm carefully around the bulb leaving the top exposed. Place in the dark for several weeks to make good root growth and avoid excess watering. Our bulb fibre is an especially prepared peat fibre requiring no drainage and may be used in all kinds of bowls and jardiniers. One pound of fibre will fill a quart measure.

A & M Bulb Fibre 25c per lb. Postage and packing 5c per lb. extra.

GIANT SINGLE

(Packing and Postage 15c per doz.)

Duke of Westminster—Large, deep, purple bells with white eye.

L'Innocence—Pure white. Splendid for pot culture.

Queen of the Pinks—Large, rosy pink. Long spike and large flower.

Gen. de Wet—Light rose. Very fine.

Lady Derby—Rose pink. Excellent for pot culture.

Garibaldi—Crimson red. Early.

La Victoire—Glistening carmine rose. Splendid for pot culture.

Queen of the Blues—Azure blue. Very beautiful.

King of the Blues—Dark blue. Compact truss.

Grand Maitre—Deep lavender blue. Extra fine.

City of Haarlem—Pure yellow, splendid for pot culture.

Daylight—Orange yellow.

Sir Wm. Mansfield—Purplish mauve.

La Grandesse—Pure white.

Lord Balfour—Lilac tinged violet.

Macaroni—Very bright rose, fine for pot culture.

25c each, \$2.50 per doz., \$18.00 per 100.

BEDDING SINGLE

(Packing and Postage 10c per doz.)

The bulbs are slightly smaller than the named varieties, but they will produce fine flowers. Use them for beds and borders, they make a wonderful show. Bright red, pink, light blue, dark blue, yellow, purple, white.

15c each, \$1.50 doz., \$10.00 per 100.

Mixed 15c each, \$1.25 per doz., \$9.00 per 100.

DUTCH ROMAN

(Packing and Postage 10c per doz.)

Plant these for cut flowers and for naturalizing in borders. They are inexpensive, bloom freely and because of their graceful spikes make good cut flowers. They are hardy and can be left in the ground from year to year.

Pink, red, pure white, light blue, dark blue and yellow.

10c each, \$1.00 doz., \$7.50 per 100.

HYACINTH GLASSES

Tall, each 45c; Tye, each 50c.

By mail add 10c each for packing and postage.

MULTIFLORA

(Packing and Postage 15c per doz.)

An attractive new class of Hyacinths which we are able to offer this year for the first time. Each bulb sends up ten to eighteen spikes of flowers, and though the spikes are slender they are well filled with flower bells. These Multiflora Hyacinths are especially fine for pot culture and growing in bulb fibre; when in bloom each bulb is a beautiful bouquet in itself. It was possible for us to secure only a limited number for our customers this year in the following colors:

Red, White, Pink, Blue.

50c each, \$5.00 per doz.

IRIS

HARDY IRIS

(Packing and Postage 15c per doz.)

"Sweet Flag or German Iris." This class of plants is becoming increasingly popular. They thrive in almost any soil or situation, growing well in shady places. They also require very little attention, but care should be taken that they have moisture in the summer or the leaves will burn and the plant will be retarded in its growth. The best time for dividing old clumps or setting new bulbs is the fall. The named varieties listed below will produce beautiful orchid-like blooms of large size and delightful fragrance.

NAMED VARIETIES

Albert Victor—Large fragrant light blue. 25c each, \$2.50 per dozen.

Alcazar—Standards lavender, falls velvety purple, bright orange beard, handsome. 50c each, \$5.00 per doz.

LILIES

(Packing and Postage 15c per doz.)

Lilies deserve a place in every garden. They are beautiful, fragrant, and require little care except in planting. They should be planted eight to ten inches deep in soil which has been mixed with sand. Lilies should not be disturbed. If planted in pots, observe same conditions, only covering to a depth of one inch. The pots should be plunged in soil and not watered until growth appears. *Lilium Giganteum* and *L. Formosum* are ready about October and will bloom in April and May. The other varieties are ready the last of December and bloom from July to September.

LILIUM AURATUM

Ready January 1st

Gold Banded Lily of Japan. Flowers white, spotted crimson, with pure gold band running through center of each petal. Very fragrant and the most beautiful of all Japanese lilies. 35c each, \$3.50 doz.

LILIUM RUBRUM

Ready January 1st

"Red Japan Lily." Flowers white, shaded and spotted with crimson, very fragrant. One of the best for cut flowers as the flowers do not all open at once. 35c each, \$3.50 dozen.

LILIUM TIGRINUM SPLENDENS

Improved Single Tiger Lily. Handsome orange-salmon flowers, spotted black. Hardy and a free bloomer. 25c each, \$2.50 per doz.

LILIUM FORMOSUM

Ready October 1st

Black Stemmed Easter Lily. Early, vigorous and free blooming. This variety gives good results for Easter forcing. Grows well in open ground. 35c each, \$3.50 doz.

Easter Lily

LILIUM LONGIFLORUM GIGANTEUM

Ready December 1st

Easter Lily. Large, pure white. Is usually grown for Easter trade. 35c each, \$3.50 doz.

CHINESE SACRED LILY

See *Polyanthus Narcissi*

LILY OF THE VALLEY

Ready for shipment in December. See general catalog.

Narcissi, Daffodils, Etc.

The Narcissi is one of the most beautiful, useful and easiest grown of all the bulbous flowering plants. They are very popular as cut flowers, because of their splendid keeping qualities and fragrance. They may be grown in beds, borders or planted in a shrubbery border and allowed to naturalize, and while preferring partial shade will thrive in full sun. The bulbs may be planted from October to the last of January in good garden soil, covering a depth of about 5 inches.

The Narcissi which may be grown in water are Paper Whites, Soleil d'or and Chinese Sacred Lilies. The bulbs should be held above the water by coarse gravel or stones. Keep in the dark for several weeks for root growth. All Narcissi may be grown in bulb fibre. The same culture should be followed as given for Hyacinths.

Grand Duchess—White.

Bermuda Buttercup—Yellow.

35c doz., \$2.50 per 100.

Bowell—Brilliant Rose.

50c per doz., \$3.50 per 100.

TRITONIA

Attractive orange red flowers, which are showy in beds, useful for cutting and of easy culture. They grow 12 to 18 inches high and resemble a freesia. They may be left in the ground all year and the bulbs separated about every three years. 10c each, 75c doz.

BULB FIBRE CULTURE

For growing tulips in bulb fibre the culture is the same as given for hyacinths. We recommend planting six bulbs in a bowl 2 inches deep and 6 across. Also for a uniform bloom use only one variety. If given plenty of time to form root growth tulips are very successfully grown in this way.

A & M Bulb Fibre, 25c per lb.

SPARAXIS

A small bulbous plant bearing flowers similar to an Ixia; only the plants are more dwarf and the flowers slightly larger. There is a wide range of color and they make very attractive bedding plants. 10c each, 75c doz.

CALIFORNIA GARDEN FLOWERS

— By Wickson —

Second edition revised and extended. Covers the California flower garden completely. Price \$2.00.

Poetaz Larencaster

MADEIRA VINE

Also Called Mignonette Vine

A well known vine growing from a tuber. Should be planted during the winter months. 10c each, \$1.00 doz.

MONTBRETIA

An evergreen bulb. Tall, graceful spikes or orange colored flowers make this a splendid cut flower. It is easily grown and blooms very freely. 50c doz.

Montbretia

RANUNCULUS

The Ranunculus is one of our most popular early spring bloomers, being used extensively for massed beds or for borders. They may be planted from August to March but the early planting will produce a more sturdy growth and a greater number of flowers over a longer blooming period. Thousands of these bulbs are planted annually and each year at blooming time hundreds of people come to our store to inquire about them and to ask for bulbs when it is too late to plant. If you do not know what they are take a chance and plant a dozen or more and you will not regret it. We consider them one of our most satisfactory California bulbs for garden show or for cut flowers.

Soak the roots for two hours and plant the claws downward. Plant six to eight inches apart and cover to a depth of two inches.

GIANT FRENCH

The Giant French Ranunculus is a semi-double variety but our mixture contains many which are almost real doubles. The Giant French are the most vigorous growers, producing an abundance of bloom for about 2 months. It is one of our loveliest spring flowers for cutting.

Giant French Mixed, large size 75c doz., \$5.50 per 100.

Medium size 50c doz., \$3.50 per 100.

Small size 35c per doz., \$2.50 per 100.

DOUBLE TURBAN

We have been fortunate in securing some of the real double Turban Ranunculus. These we list in four colors. This variety makes beautiful beds and though shorter stemmed than the French makes an excellent cut flower.

Romano—Double scarlet.

Rosalia—Double pink.

Primrose—Double Yellow.

Double Mixed.

10c each, \$1.00 per doz., \$7.50 per 100.

ORNITHOGALUM

Star of Bethlehem

(Packing and Postage 10c per doz.)

A popular bulb which throws a stalk about two feet high, bearing a cluster of star-shaped white flowers. The flowers have a black center and a delightful perfume.

10c each, 75c per doz.

Ornithogalum

Double Turban Ranunculus

SCILLA CAMPANULATA

This is the blue bell of England and is also called Bell Flowered Squill. It is very attractive for beds or borders and may be left undisturbed for several years. Blooms early in the spring.

Blue, 5c each, 50c doz.

Rose, 10c each, 75c doz.

White, 8c each, 60c doz.

ZEPHYRANTHES

Fairy Lilies

Wonderful little edging plants, with decorative grass-like leaves; growing about a foot high and bearing a lovely flower about two inches across. The bulbs multiply rapidly and bloom profusely.

Pink 10c each, \$1.00 doz.

White 10c each, 75c doz.

TUBEROSES

Ready for shipment in January. See general catalog for list and description.

Scilla Campanulata

TULIPS

For grand effect as an early spring flower, the Tulip probably heads the list of bulbous plants. They are entirely hardy, easily cared for, flower freely in city or country, sun or shade, and with proper selection of varieties, their flowers may be enjoyed from April to June. It naturally follows that they are becoming immensely popular. Named varieties are to be preferred for satisfying results. Plant five or six inches apart, cover to a depth of four or six inches from the crown of the bulb, the greater depth for light soil.

For house culture, plant four to six bulbs in a six-inch pot, treat as advised for hyacinths. Good roots and plenty of them before bringing plants to light and warmth are essential to success.

Darwin Tulips

BUTTERFLY TULIPS

(Packing and Postage 10c per doz.)

These are also called Bizarres. The flowers are golden yellow striped and feathered with bronze, dark red and black. It is a tall growing variety and produces a striking effect. For a contrasting and brilliant bed we

suggest mixing with Parrot and Darwin Mixed Tulips.

Extra fine mixed. 10c each, 75c doz., \$5.50 per 100.

PARROT TULIPS

(Packing and Postage 10c per doz.)

Parrot Tulips have immense flowers of brilliant and various colors. Petals fringed and cut, very showy. Single mixed, 10c ea., 75c doz., \$5.50 per 100.

DARWIN TULIPS

A & M VELVET LAWN GRASS

No California home is complete without a lawn. It is the finishing touch and should have your personal attention and careful consideration. The perfect lawn is obtained by sowing a blend of grasses best suited to the variation of temperatures to which it is subject during the twelve month period. Heavy root growth is essential for permanency and turf must be considered from the standpoint of beauty. A & M Velvet Lawn Grass contains the proper proportion of these grasses including Kentucky Blue Grass and white clover and when properly planted and cared for will produce a beautiful turf of bright, velvety, green color. Lb. 90c, 5 lb. \$4.25, 10 lb. \$8.00.

KENTUCKY BLUE GRASS

We maintain our own seed testing laboratory and each lot of our genuine Kentucky Blue Grass is tested for purity and germination. There is positively no guess work about it. You know when you buy A & M

Kentucky Blue Grass that it is high grade in every respect. Anywhere you go in Southern California you will see hundreds of lawns produced from A & M Reliable Seeds. Fancy Kentucky Blue Grass, lb. 60c, 10 lbs. \$5.50.

A & M WHITE CLOVER

Ask the salesman to show you a sample of our white clover seed and note its freedom from chaff and foreign seeds. A & M White Clover is tested for purity and germination the same as our Kentucky Blue Grass. For a fifty-fifty growth of white clover and blue grass mixed, use 1/3 clover and 2/3 blue grass. This being sufficient blue grass to hold the clover leaves upright and give the lawn a good appearance. Fancy A & M White Clover per lb. \$1.00.

A & M LAWN AND GARDEN FERTILIZER

When your lawn is a dull green or shows brown spots it is an indication that it needs plant food. A & M Lawn and Garden Fertilizer applied at the rate of 100 lbs. to 2,500 square feet and watered immediately after will show an improvement in growth and color within a few days. It is odorless, economical, easy to apply and the results are lasting. Use it on roses, trees, and in the garden. Apply any time and follow with sprinkling or irrigation. 100 lb. sack, \$3.75.
